DETAILED ACTION

Introduction

1. In view of the Interview Summary mailed (8/6/08), the Final Rejection mailed (2/6//08) has been vacated. A new Office Action on the merits follows below.

Oath/Declaration

2. The oath or declaration (filed 3/24/05, 6/18/96) is/are defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be “material to patentability as defined in 37 CFR 1.56.”

3. Claims 11-15 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Art Unit: 2424

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 11-15 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

See MPEP § 1414.01.

Any limitations added to the original patent

Art Unit: 2424

claims must always be shown as underlined throughout the prosecution. When canceling original claims, the canceled claim language must be enclosed in brackets.

6. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,365,282 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation. Patent 5,365,282 has a Certificate of Correction, which is not incorporated in any amendment to the Specification of the present Reissue Application. The Certificate of Correction is considered to be part of the patent and must be incorporated in the Reissue Application, according to MPEP §§ 1411 and MPEP §§ 1411.01.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
